a
Repeat pattern in real proteins and in the audit
real proteins, design set (n = 176)
real proteins with the pattern (n = 27)
audit, pattern + DNA contradiction: D (n = 25)
audit, pattern only: C, flagged (n = 47)
below and left of the dashed line:
no repeat pattern
Self-identity at the best period
Share of residues in repeated 25-mers (rep25)
0.0
0.2

b
RNA-seq rule on wrong models (57 real models)
Share of wrong models downgraded
Share of the model's introns made wrong
introns shifted 15-60 bp, rules v1
introns shifted 15-60 bp, rules v2
shifted: 'contradicted' only
exons skipped, rules v1
exons skipped, rules v2
skipped: 'contradicted' only
